" To give life to Architecture you need a mother, the Architect and a father, the Client."

Il Filarete

Roccatelier boasts a professional history studded of numerous national and international recognitions more than ten years. Driven by the architect Laura Rocca in 2012 it is inserted in a publication, with preface of the President of the Republic Napolitano, among the Excellences of the Italian architecture.

Roccatelier Associates offers services in architecture and engineering. Supported by a network of professionals and by our talented staff, we promote integrated design, and provide architectural and engineering services to a qualified public and private clients

Different acquired technical competences allow the Roccatelier Associati to cover different needs of the planning: from new building to restoration since interior design.
